

Château Les Vergnes

« Respect the genius of its terroir, its vineyard and the climate cycle to offer you a unique and inimitable wine »,
Serge Labat, technical director of the chateau Les Vergnes

A.O.P Bordeaux

A strong and sustainable history

Chateau Les Vergnes belonged to Gargan Baron who carried out successfully the first experiments against the phylloxera since 1879. From then on, the vineyard never stopped using modern vineyard techniques. Chateau has been certified "Integrated Farming" estate since 2005 and then certified **High Environmental Value**, Chateau is recently committed to a **sustainable production approach**, respecting a fundamental principle: to produce a quality wine that, throughout its development, respects the Men, the Earth and our Landscapes. This commitment carries the signature "**Bee Orchid**", a rare orchid preserved on the estate, certification label of Earthwatch Institute **NGO**.

Terroir

Limo-clayey soil

Grape varieties

42% Sauvignon, 32% Sémillon, 17% Muscadelle and 9% others
* Percentage that can change according to the conditions of the vintage

Vinification

The Sauvignon is subjected to a skin maceration, while the juices of the Muscadelles and Sémillons are obtained by direct pressing. This vinification and grape variety give rise to a characteristic white wine with excellent potential for aging.
Maturing in stainless steel tanks and on fine lees with stirring during its first winter.

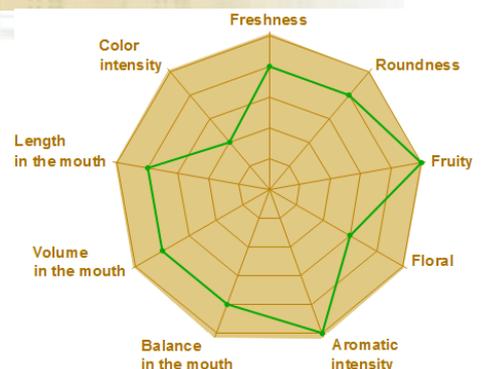

Organoleptic profile and tasting notes

Color : a pale yellow

Nose : strong fruity aromatic expression (citrus fruits and passion fruit) and flowery (broom, hawthorn) blossoming in perfect harmony

Palate : intense, structured and elegant, will seduce by its freshness and personality

Service Tips

Between 8 and 10°C

Ideal with seafood platter, grilled fishes and white meats

Consumer profiles
